Additional Skills: Mongo DB · Prisma · Testing (JEST) · Agile Methodologies

Soft Skills: Communication · Adaptability and Problem solving · Attention to detail · Time management

Projects

Danrit Beauty Salon
danritbeautysalon.com

At Capacity Bay, I contributed as a Front-End Developer to the creation of Danrit Beauty Salon's website.

- Built a visually appealing and intuitive UI using React and Tailwind CSS, that aligned with Danrit's brand aesthetic and user flow
- The interactive UI made exploring services intuitive and streamlined, improving user satisfaction and engagement.
- I actively participated in design discussions, provided technical feedback, and refined UI mockups to achieve an optimal user experience.
- I seamlessly integrated third-party APIs to display dynamic content and bolster functionality,
- I maintained clear communication with the project lead and team, troubleshooting technical challenges and ensuring timely delivery within budget.

Ticketlee
ticketlee.vercel.app

Ticketlee is a full-stack event ticketing platform.

- Leveraged Next.js server actions for efficient server-side rendering and data fetching.
- Utilized MongoDB as the primary database to store and manage event data securely.
- Implemented Clerk for seamless user authentication and authorization.
- Employed Tailwind CSS and ShadCN UI for rapid and responsive UI styling.
- Integrated Stripe for secure and convenient ticket purchases.
- User-friendly search and filtering: Empowered users to find relevant events efficiently with advanced search and filter options.
- Comprehensive event management: Provided tools for event creation, ticket sales, and data management.
